

Frances W. Lemen

Frances has been riding since 1959. She learned on a BSA, and her first bike was a BMW. At first, she was not interested in "how to ride a motorcycle." She enjoyed riding passenger, but after her husband insisted, she agreed to learn how to ride. She learned on the back roads near her house, and after riding on her own she no longer wanted to be a passenger.

In 1963 she joined Motor Maids, Inc. and has since ridden coast to coast and border to border. She has also ridden up into Canada and to 45 states. She has held the offices of secretary, treasurer, historian and vice president of a motorcycle club and/or group.
